Subject: RE: call #6

Dear One Health Work Group,

I wanted to make you aware that the time for call #6 has been pushed back by an hour to **4-5pm (ET) on Friday, November 3** due to a conflict in Jonna's schedule. Based on the doodle poll you all filled out, it seems like most of you can still join the call even with this shift, but please let me know if you cannot make it. I apologize for changing the time again.

Also, thank you to the members who sent feedback for the outline for the discussion paper on core competencies [REDACTED] will send out another iteration of it soon, so stay tuned!

I hope you are having a wonderful summer!

Best regards,
Ayano

Hi One Health Work Group,

I am happy to have received many comments and suggestions so far. I will develop the extended outline and circulate with the group in the coming weeks.
Have a wonderful weekend.

Best wishes,
[REDACTED]

Subject: RE: One Health Work Group 1-page outline for discussion paper

Thank you, [REDACTED]. I suggest considering greater emphasis on integration of academic and "real world"/applied one health competencies. The ability to work effectively in a public health agency, ranging from front line local and state to regional/national public health agencies, is not always developed optimally in purely academic programs. Integrated training and collaborative work between academia and public health agencies would be desirable.

With respect to communication, I hope our recent workshop on building communication capacity to counter infectious disease threats will be of value.

Jeff

Subject: One Health Work Group 1-page outline for discussion paper

Hi One Health Work Group members,

I hope you are having a great week.

I have attached the one-page outline for our first discussion paper, and would appreciate your feedback by Wednesday August 9. Based on your input, I will circulate an extended outline in the week of Aug 27.

If you are able to volunteer in the further development of the manuscript as part of the committee, please let Ayano know. So far the committee includes Jonna, Jenn, Gail and Dave.

Best wishes,
[REDACTED]

Subject: RE: One Health WG call (7/14) follow up

Dear One Health Work Group,

Thank you for participating in the work group call earlier this month. Attached are call notes for your review. The work group made great progress on the call, so please take a careful look at the notes.

For members who were absent from the call, I would like to highlight a couple items:

- o Lonnie King (vice chair of the Forum on Microbial Threats) has expressed interest in joining the work group. Members of the call agreed that he would be a valuable addition, but please let me know if you have any feedback about adding him to the membership.
- o Members on the call discussed that a discussion paper on One Health core competencies would be a deliverable that the work group can start working on this summer, with help from [REDACTED]. Please review the notes to see the ideas that were discussed for this discussion paper and let us know if you have any other thoughts by the end of the week. Additionally, please let us know if you would like to serve on the "core competencies committee" to help write and edit the discussion paper.

A few other logistical items to note:

- o Early next week, after all members have had a chance to share any other ideas for the discussion paper, [REDACTED] will send over a preliminary outline of the discussion paper for feedback. Please be on the lookout for an email from her.
- o The date and time for call #6 has changed. The call will now be held on Friday, November 3 at 3-4pm (ET). I will update the calendar invite shortly. Call #5 will still take place on Friday, September 22 at 3-4pm (ET).
- o I have received a couple of resources from members that might interest the work group, including recent publications on the Checklist for One Health Epidemiological Reporting of Evidence – COHERE, and on mass species extinctions. Please take a look.

As always, if you have any questions or concerns, please feel free to get in touch with me. Thank you for your continued interest and participation in the work group.

Best regards,
Ayano
